What is this product?

Type This product is a class of units of the Sub-Fund and is denominated in EUR. The Fund is an open-ended investment company with variable capital ("SICAV") and qualifies as an Undertaking for Collective Investment in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 relating to Undertakings for Collective Investment ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS. As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Product objectives The Sub-Fund aims to provide long-term capital growth primarily in eligible listed equity securities issued by closed-ended real estate investment trusts ("REITs") and companies that own, develop, operate or finance real estate investment, where real estate assets or activities account for more than 50% of the value of such companies' shares ("Real Estate Companies").

Investment policy The Sub-Fund's assets will mainly be invested in listed equity securities of closed-ended REITs and other Real Estate Companies (including smaller capitalisation companies). Issuers of these securities may be located in any country, including emerging markets. The Investment Manager seeks to access the impact of environmental, social and governance factors (ESG) (including accounting and tax policies, disclosure and investor communication, shareholder rights and remuneration policies) on the cash flows of many companies in which it may invest to identify issuers that the

Investment Manager believes will be negatively impacted by such factors relative to other issuers. These determinations may not be conclusive, and securities of such issuers may be purchased and retained by the Sub-Fund. Debt securities, UCITS, other UCIs, cash and cash equivalents may be held on an ancillary basis. The sub-fund may use financial derivative instruments only for hedging purpose and effective portfolio management.

Benchmark FTSE EPRA/NAREIT Developed Index (Net Total Return). Active UCIT, not managed in reference to a benchmark.

Redemption policy Investors may invest, convert and redeem on any business day unless amended by the board of directors of the SICAV at its discretion.

Distribution policy Any income generated may be distributed periodically to shareholders.

Intended retail investor Retail investors

What are the risks and what could I get in return?

Risk Indicator

will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity to pay you.

Not all risks affecting the Sub-Fund are adequately captured by the summary risk indicator. Other risk factors should be considered before investing including concentration, currency, operational, counterparty and liquidity risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if Crestbridge Management Company S.A. is unable to pay out?

You are exposed to the risk Crestbridge Management Company S.A., acting on behalf of the Fund, might be unable to meet its obligations in connection with the product. This may materially adversely affect the value of the product and could lead to you losing some or all your investment in the product. A potential loss is not covered by an investor compensation or protection scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10 000 is invested.

Investment USD 10 000		
Scenarios	If you exit after 1 Year	If you exit after 5 Years
Total Costs	408.0 USD	2 257.3 USD
Annual Cost impact(*)	4.08%	4.16% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.10% before costs and -0.07% after costs.
